The claimed invention is directed to a consumable package comprising a clear-binder product and a packaging material, the packaging material comprising a plastic or polymer material with a melting point from 50 to 150°C. None of the above documents discloses such a combination. They are directed to a packaging of bitumen as opposed to a consumable packaging comprising a clear-binder product of the claimed invention. Therefore the claimed invention is novel, involves an inventive step and is industrially applicable.
